WASHINGTON.

Bayard's First Assistant and the Indian Commissioner Named from Tennessee.

The Senate Considers the Alaska Commission and Confirms the President's Appointments.

Minister Morton Was Not Requested to Remain at the Court of France.

The Senate.

By Telegraph to THE SENTINEL.

WASHINGTON, March 20.—The vice president to-day laid before the senate the memorial of the Montana legislature stating that nearly all the public domain in Montana is a desert land and protesting against a repeal of the desert land act.

The resolution for the appointment of the Alaskan committee was laid before the senate and Manderson moved its reference to the committee on territories. A debate arose, during which VanWyck attacked the South American commission in a vigorous style.

The senate confirmations are Martin V. Montgomery, Michigan, commissioner of patents; Milton. J. Durham, Ky., first comptroller of the treasury; Marion Hay, Penn., first assistant postmaster general; Joseph R. Ryan, Nevada, coiner of mint, Carson city; Wm. Garrard, Nevada, superintendent mint, Carson city; J. D. Catkins, Tennessee, commissioner Indian affairs; Chas. D. Porter, Tennessee, assistant secretary of state.

NOMINATIONS.

A number of nominations were sent to the capital to-day but arrived after the adjournment of the senate and it is understood they consisted of appointments under the state department, but the particulars were not disclosed.

Prominent Tennessee Democrats assert however that Ex-Congressman Atkins was named in the list as Commissioner of Indian affairs and it is rumored that Jno. B. Stoll of Indiana was named for the position of public printer.

TREATIES.

The senate in the executive session ratified the treaty with the Khedive of of Egypt and the convention relative to the boundry lines between this country and Mexico. The treaty with the Khedive extends to the United States commercial privileges, which Great Britain enjoys by virtue of the treaty between Egypt and Greece made about a year. The treaty with Mexico recognizes the principles of the international law in the settlement of disputes which may occur in the changing of the bed of the Rio Grande.

HAZEN COURT MARTIAL.

In the court martial to-day General Hazen's friends manifested their sympathies with him not only by their presence, but by loading the table at which he and his counsel sat with baskets and bouquets with choice cut flowers. Judge Mackey opened the argument for the defense, and in discussing the endorsement of the secretary of war upon the letter of General Hazen, said that "such was the heat and temper of the secretary of war upon the questions relating to the Arctic work that even upon the subject of ice, upon the question of an iceberg, the honorable secretary could not keep cool." The court declined to hear further argument upon the subject of indorsements. Judge Mackey protested against the decision. A protest was entered and the court adjourned.

Washington Gossip.

By Telegraph to THE SENTINEL.

NEW YORK, March 20.—The strike of the operators of the bankers and merchants telegraph company has been temporarily suspended and the men here returned to work. Receiver Butler of the company met the men this morning and they demanded that the 20 per cent. of the salaries due for February be paid Saturday and the salaries for March on 23rd inst. Butler told the men that such action on his part was impossible, but if they would trust him until the end of the month he would see that they were paid or he would go out with them. This proposition was accepted.

An Expert Bookkeeper.

By Telegraph to THE SENTINEL.

MILWAUKEE, March 19.—The Sentinel has to-night come into possession of facts which clearly indicate that the Racine Wagon and Carriage company has within the past year been defrauded of between $20,000 and $30,000 by W. H. Spaulding, the head bookkeeper of the institution. About the middle February, Spalding disappeared in company with Mamie Minton, a woman of the town, with whom he had been intimate. They went to New Orleans, then to New York and from there to Buffaloo. There Spaulding procured tickets for himself and companion to an out-of-the-way point in Canada, but she gave him the slip and returned here to-day. He is supposed to have gone to Canada. The Racine Wagon and Carriage Co. is the largest in the state and perhaps in the northwest.

Spaulding is an excellent bookkeeper and held the complete confidence of the firm. He is said to be the son of the proprietor of a prominent hotel at Washington. He left a wife and two children nearly destitute at Racine. His manner of operation is not known, the proprietors of the works being very reticent.

Another One Gone.

SPRINGFIELD, Ill., March 20—Senator Bridges, a democratic member of the state senate, who suffered from a stroke of paralysis one month ago and whose condition ever since has been very critical, died at his home, near Carrollton, this morning. This following the death of Representative Logan, three weeks ago, leaves the Illinois legislature once more a tie on joint ballot. General Grant.

By Telegraph to THE SENTINEL.

NEW YORK, March 20.—General Grant passed a good night and felt much better this morning and ate a hearty breakfast. General Grant's daughter, Mrs. Sartoris, arrived to-day on the steamer Baltic from Liverpool.

NEW YORK, March 19.—The following will appear in the Medical Record, March 21:

"During the past week the local disease of General Grant has shown no marked tendency toward progressive ulceration. At the recent weekly consultation, Dr. Fordyce Barker was unavoidably absent. Drs. J. H. Douglas, H. B. Sands and Geo. F. Shrady, who were present, made a thorough examination of the general's throat with a view of discussing the expediency of a radical surgical operation for the removal of the growth. Such a measure would involve the division of the lower jaw in the median line, the extirpation of the entire tongue and a greater part of the soft palate, together with the removal of the ulcerated and infiltatered fauces of indurated glandular structures under the right angle of the lower jaw. This was considered mechanically possible despite the close proximity and probably involvment of the tissues adjoining the large arteries and veins in the neighborhood of the ulcerations, but in the best interest of the distinguished patient the surgeons do not feel inclined to recommend a proceedure. Even by such means there could be no guarantee in view that it could be reached without the immediate risk to his life by a severe shock to the constitution, already much enfeebled. Low vital power is such a strong element in the decision that for the present, at least, no kind of operation will be undertaken. The ulceration on the side of the tongue has not yet progressed far enough to produce the usual intolerable pain associated with that condition, but should the latter symptom appear it may be deemed advisable to divide the gustatory nerve. The general tone of the patient's system remains about the as at the last report, notwithstanding that he has suffered much from insomnia. The latter in the last day or two has been kept under control by suitable doses of anodyne. There is no pain in swallowing and sufficient food is taken with reasonable relish.

HENRY WARD BEECHER'S BROTHER.

The Rev. Henry Ward Beecher has three brothers living. One of these is the Rev. Charles Beecher, known as the writer of some of the most quaint and touching hymns in the English language. Another is the Rev. Edward Beecher, a profound theologian, far advanced in years, and living in Brooklyn, where he preaches from time to time. A third brother is the Rev. William Henry Beecher, who is spending the serene years of a mellow old age at his home, 6 Honore street, Chicago. Mr. Beecher is 84 years old, and, with the exception of the natural infirmities of age, is a hearty and vigorous old gentleman.

A gentleman who recently visited Mr. Beecher at his home, found him in an exceedingly genial frame of mind and by no means indisposed to talk about the relief he had obtained from the rheumatism, which for many years had been a source of trouble to him. In reply to a question, the venerable gentleman remarked, "Why, you want to know about Athlophoros. It is the greatest medicine in the world for rheumatism. I had suffered with that disease for fifteen years. My hands and my joints were swelled. I had much pain, and many sleepless nights. It took my pain away, and gave me power to sleep. Do not understand me to say that my rheumatism is all gone. It would be a miracle if rheumatism could be entirely driven away from an old man like me, who has had it for years. I have some of it left, and occasionally I feel its pains. Then I take more Athlophoros, and the pains are driven away. Even if it can't entirely drive out the cause of pain from a man who has had it so long, it takes the pain away, and that is a great deal. Sometimes I had frightful pains at night, before going to bed. Then I would take a dose of Athlophoros, and I soon find the pain all gone, so that I could enjoy a calm and refreshing night's rest.

"I believe Athlophoros will cure chronic rheumatism. I know that is saying a great deal for it; but I say it. A tough old case of rheumatism like mine is very hard to cure, I know. But see my hands; they are no longer swelled as they were. I am free from the pains I used to have. I sleep well, and what more can an old man of 84 ask for?"

Mr. Beecher's daughter cheerfully confirmed what her father had said, and gave her testimony to the great advantages I had received from the use of Athlophoros.

For a number of years, Mr. C. L. Wetmore, of the well known wholesale clothing house of Messrs. Thompson & Wetmore, 151 & 153, Fifth Ave., Chicago, was greatly afflicted with rheumatism, which interfered not only with his personal comfort, but with his ability to attend to business. He is now well.

Calling on Mr. Wetmore, at his residence on Fifth avenue, the gentleman, finding him willing to converse as to his experience in regard to rheumatism.

"I am told, Mr. Wetmore, that you got rid of your rheumatism by the help of Athlophoros. Is that true?"

"Well, I had been for a long while troubled with rheumatism, and I had tried almost everything in the line of medicine, I may fairly say that Athlophoros finished the rheumatism, and finally overcame it. Some of the other remedies had given me relief, which proved only temporary and incomplete. But it was not so with the Athlophoros. Since I have taken it I find that I have no more rheumatic pains, either to annoy me by day, or to interfere with my sleep by night. My rheumatism was at times very severe. All my joints were swollen, and were very painful. I was detained at home sometimes as much as a month at a time, suffering acutely and unable to attend to business. Now that Athlophoros has finished the rheumatism, I am happy to say that my sleep is good, my appetite is regular and healthy, and I am every day attending to business."

If you cannot get ATHLOPHOROS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us, as directed. ATHLOPHOROS Co., 112 Wall Street, New York.

SENATOR EVARTS presented ex-President Arthur a letter, signed by 250 prominent New York business men, inviting him to dine with them at Delmonico's at such date as would be most convenient to himself.

AFTER the first of April, the assessors in the several townships of Allen county will call upon the people for the purpose of assessing their property for taxation. In the mean time, if the farmers would take a little time and carefully make a list of their property, and estimate the number of bushels of wheat, corn oats, tons of hay, pounds of bacon, lard, etc., on hand, it would greatly facilitate the work of the assessor.

AN episode is recalled in the life of Trustee Goar, of the Knightstown soldier's orphans' home. It is said that, while yet a young man, he shot and killed an inoffensive young man by the name of Bowlin, who was clerk at the City hotel at Tipton, without provocation. Goar's father, who was in moderate circumstances, spent all of his money in his son's defense, but died in poverty, neglected by his son. Bowlin had no friends to prosecute Goar.

INDIANA has had the following cabinet officers in times past: John P. Usher, secretary of the interior; Caleb P. Smith, secretary of the interior; Hugh McCulloch, twice secretary of the treasury; James Tyner, postmaster general; Richard Thompson, secretary of the navy, and W. Q. Gresham, postmaster general and afterwards secretary of the treasury. The state has had two vice presidents, Schuyler Colfax, of South Bend, and Thomas A. Hendricks, of Indianapolis.

THE Indianapolis *Times* says that at the November settlement of the counties of the state, taxes to the amount of $2,530,735.51 were reported delinquent. Marion county reported $141,486.31 of this sum. The decision of the supreme court lowering the rate allowed county treasurers for delinquent taxes is the cause of this great increase. The treasurers are said to be permitting a great amount of taxes to remain uncollected in order that the legislature may be compelled to change the law, restoring the larger rate.

THE New York *Sun* has compiled an interesting table giving the number of I's in the inaugural addresses of all the presidents, and also the number of words. Harrison's was the longest of all, containing 8,578 words, with, however, only thirty-eight "I's." Monroe, in his second inaugural, managed to use up 4,576 words, calling on the "I" case twenty-six times. Lincoln had forty-three "I's" in his first inaugural and only one "I" in his second. Arthur's record stands one "I," and Cleveland's five. Tyler and Johnson, two of the "accidental" presidents, had fifteen "I's" each, and Fillmore none at all, for the excellent reason that he made no inaugural address.

THE *American Almanac* for 1885, which is edited by Mr. Ainsworth R. Spofford, the librarian of congress, is out. It computes the popular vote at the recent presidential election as follows: Cleveland, 4,911,017; Blaine, 4,848,334; St. John, 151,809; Butler, 133,825; scattering and blank, 11,862; total popular vote, 10,048,061, or 79.9 per cent. of the voters indicated by the voters of 1880. Plurality for Cleveland, 62,583. To arrive at this result the fusion vote in Iowa and Nebraska is counted for Cleveland, and in Michigan only 753 greenback votes are given to Butler. In Missouri all the fusion vote is counted for Blaine, and in West Virginia Butler is only credited with 805 votes.

THE continued cold weather is becoming a serious obstacle to all classes of business, and unless a change is soon experienced all kinds of trade will be crippled to an extent that it will not recover from for some time. Various reasons and causes have been assigned by different people for the extreme, and continued cold of the past winter, which seems determined to intrude its presence into the middle of the spring season. A number of astronomers declare that the earth, in the past year, has changed its position among the other planets, thus losing much of the warmth from the rays of the sun at the same time, passing through a colder atmosphere. Others claim that a cold period is, and always has been due at stated intervals, and the past two or three winters have been one of those periods. A popular opinion among local weather prognosticators, at different points around the lakes, is that the great amount of ice has been the cause of the extreme cold, which has continued so late.

Do you wish freedom from aches, pains, sores, etc? Then purify the blood and strengthen the urinary and digestive organs, and build up your broken down constitution by using Dr. Guysott's Yellow Dock and Sarsaparilla. It is gratifying to know that among intelligent communities this simple, harmless, yet effective remedy sells faster than the many bitters, iron medicines and pretended kidney cures, all of which rapidly weaken and ruin the stomach, liver, bowels and kidneys, by exciting these delicate organs to unnatural activity.

Biliousness

Is very prevalent at this season, the symptoms being bitter taste, offensive breath, coated tongue, sick headache, drowsiness, dizziness, loss of appetite. If this condition is allowed to continue, serious consequences may follow. By promptly taking Hood's Sarsaparilla a fever may be avoided or premature death prevented. It is a positive cure for biliousness. Sold by all druggists.

OLDEN TIMES

The formula by which Mishler's Herb Bitters is compounded is over two hundred years old, and of German origin. The entire range of proprietary medicines cannot produce a preparation that enjoys so high a reputation in the community where it is made as

MISHLER'S HERB BITTERS.

It is the best remedy for Kidney and Liver Complaints, Dyspepsia, Cramp in the Stomach, Indigestion, Malaria, Periodical Complaints, etc. As a Blood Purifier, it has no equal. It tones the system, strengthening, invigorating and giving new life.

The late Judge Hayes, of Lancaster Co., Pa., an able jurist and an honored citizen, once wrote: "Mishler's Herb Bitters is very widely known, and has acquired a great reputation for medicinal and curative properties. I have used myself and in my family several bottles, and I am satisfied that the reputation is not unmerited."

A CHILD!

TALLSOTTON, GA., Sept. 12, 1884.—My little son, now seven years old, broke out when a babe three weeks with what the doctors called eczema, beginning on the head and gradually spreading over his whole body. He was treated for five years or more by various physicians without relief, and the little boy's health was completely broken down. About a year ago I was induced to use on him Swift's Specific, and two bottles cured him sound and well, and there has been no sign of a return of the disease.

Poisoned by a Nurse.

Some eight years ago I was inoculated with poison by a nurse who infected my babe with blood taint. The little child lingered along until it was about two years old, when its little life was yielded up to the fearful poison. For six long years I have suffered untold misery. I was covered with sores and ulcers from head to foot, and in my great extremity I prayed to die. No language can express my feelings of woe during these long six years. I had the best medical treatment. Several physicians successively treated me, but all to no purpose. The Mercury and Potash seemed to add fuel to the awful flame which was devouring me. About three months ago I was advised try Swift's Specific. We did so, and I felt hope again, revive in my breast; but alas! alas! I had spent so much for medical treatment that we were too poor to buy. Oh! the agony of that moment! Death and happiness within your reach, but too poor to grasp it. I applied, however, to those who were willing and able to help me, and I have taken Swift's Specific, and am now sound and well once more. Swift's Specific is the best blood purifier in the world, and it is the greatest blessing of the age. MRS. T. W. LEE, Greenville, Ala.

SSS

A Druggist for 25 Years.

AUBURN, Ala., Sept. 8, 1884.—I am an old pharmacist, and have had to do largely with blood diseases for over twenty five years. I have dealt in all kinds of blood purifiers, and do not hesitate to say that Swift's Specific is the best and has given general satisfaction than any other I have ever handled. Last year a student came to my store emaciated and covered with sores. I recommended S. S. S. He took only three bottles, and the sores disappeared, his throat healed up, and his skin cleared off. His flesh was smooth and fresh as that of a child, and he has gained ten pounds. I scarcely knew him when he returned after an absence of several weeks. He claimed to be renowned in flesh and spirit. A number of other cases less malignant have come under my observation, and all with the best results. Swift's Specific is an excellent tonic, and as an antidote for malaria has no superior. Many ladies are using it as a tonic for general debility, and find it the most satisfactory one ever used. I have been dealing in Swift's Specific for five years or more, and am satisfied that I do not place too high an estimate upon its merit. G. W. DIXON.

The Only Papers in the City That Receive Fresh News

FORT WAYNE, Ind., Oct. 8.

This is to certify that THE FORT WAYNE SENTINEL and the Fort Wayne *Gazette* are the only newspapers in the city of Fort Wayne that are members of the Western Associated Press and receive Telegraphic News.

O. L. PERRY,
Manager of the Western Union Telegraph Office.

LOCAL NEWS:

The Wabash pay car is expected to be here one week from to-morrow.

Miss Lizzie Hine, head trimmer at Mergentheim's Bazaar, returned from the east yesterday.

THE SENTINEL collectors will call on subscribers to-morrow. Have your money ready for them.

Some of the Adventists have now fixed upon May 19th as the day for the winding up of things mundane. Let her wind.

The Bluffton *Times* says: "Miss Flora Carroll, teacher in the public schools, spent vacation with her parents in Fort Wayne."

The Bluffton *Times* says: "Mrs. Peter Kiser, of Fort Wayne, visited the family of Sheriff Justus several days last week. She returned home Friday."

No preparation could have made such a reputation as Salvation Oil has (in so short a time) without intrinsic merit of the highest order. It kills pain. Price 25 cents a bottle.

Rome City people are airing a scandal. An old sinner and a maiden of that village came to Fort Wayne and enjoyed themselves. All sorts of cruel rumors now pursue them and the girl weeps.

The Huntington *Democrat* says: "Henry Colerick, a Fort Wayne attorney, who is employed to assist the lad Stinebrenner, was in the city one day last week in the interest of his client. Mr. Colerick is a shrewd lawyer and an excellent orator."

Acute rheumatism is an inflammation of the joints, marked by pain, heat, redness, and a tendency to suddenly shift from one joint to another. With these symptoms apply Salvation Oil, the great pain cure, to the parts affected without delay. Price 25 cents a bottle.

After July firs. the new postal regulations will take effect. The weight of a letter to be carried by a two-cent stamp has been increased to one ounce, or just double what it is at present. This will allow longer letters to be written and also the use of heavier paper.

Prof. W. F. Yocum, Dr. J. S Irwin and County Superintendent Hillegas feel keenly the disgraceful conduct of Prof. J. A. Kibbe, the lecherous Kendallville pedagogue and preacher. These gentlemen first recommended Kibbe to the people of Kendallville. He appeared to be a pretty nice fellow then.

Ed Doolittle and John Schonbach, the two railroad strikers arrested at Hannibal, Mo., a few days ago by United States Marshall Cousins for interference with the operations of the Wabash railway, had a hearing before Judge Brewer, in the United States circuit court, at St. Louis, and were each sentenced to sixty days in jail.

One of the Wabash "messengers" who took two engines to Rome, N. Y., last week to have them rebuilt, states that he was detained forty-eight hours at Buffalo, on account of the railroad agent breaking his leg in a roller skating rink. Being a roller skater himself, he of course deeply sympathized with the agent, and said he would wait in Buffalo till the injured member was sufficently healed to allow him to accompany the agent to the rink, which he did, and this probably accounts for the backwardness of freights from the east to this.

The Richmond correspondent of the Cincinnati *Enquirer*, writes: Elwood McGuire a business man of this city, has had a unique revenge. Mr. McGuire is a red-hot democrat, and during the campaign the Blaine and Logan glee club had a song entitled "Swinging on the White House Gate." This song was gall and wormwood to Mr. McGuire. On inauguration day the gentleman was at Washington, and, walking around the White House, he swung on the gates, in spite of the frantic efforts of a policeman to make him desist. He returned the other morning, and is relating his adventures to gat even with the glee club.

Certain druggists begin to complain that the only cough remedy they can now sell is Dr. Wisar's Balsam of Wild Cherry. This goes to prove that intelligent people are determined to get the best cure for coughs, colds, and consumption, and will not take a substitute.

SOME INTERESTING PORTRAITS.

How Many of the More Notable People of Our Time Look.

ELIZABETH CADY STANTON.

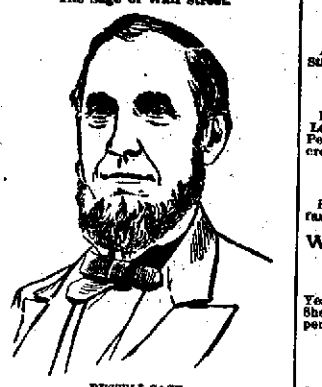
Mrs. Stanton is one of those much lauded but rarely seen personages; a beautiful woman, whose youth is past, yet seeming to enjoy a youth perpetual, that greatest gift of the gods. In point of scholarship, ability and force she is almost without a peer. Mrs. Stanton is in her 70th year. Her father was one of New York's distinguished lawyers, her mother being a Livingston and one of the most beautiful women of that distinguished family. She was educated at the academy in her native village of Johnstown, and took many prizes for Greek and Latin over the heads of her boy classmates. At the age of 16 she went to a seminary in Troy, N. Y., and completed her education in two years. At 20 she was married to Henry B. Stanton, a young lawyer and prominent Abolitionist. After traveling in Europe Mr. Stanton settled down to practice his profession, first in Boston, then in Seneca Falls, N. Y., and later in New York city. Their family consisted of five sons and two daughters. Mrs. Stanton distinguished herself in 1848 by calling the first woman's suffrage convention ever held in the world, in which she put the demand for suffrage in the shape of a resolution, which she drew up herself and pressed to a vote. Her life may be said to have been devoted to this reform. For over 40 years she has been an historic character in conventions and before legislative assemblies of both the state and nation. As a lyceum lecturer she traveled from the Atlantic to the Pacific for many consecutive years. Hers has been a busy and eventful life.

Assistant Secretary of the Treasury.

CHARLES S. FAIRCHILD.

Charles S. Fairchild, who has been appointed assistant secretary of the treasury, was born in New York state, and is now in his 43d year. He received his preliminary education at the Oneida Conference seminary, in his native town. From thence he passed to Harvard, graduating in 1863. He then chose the law as his profession, and entered Harvard law school. After graduation he went to Albany, and was admitted to the bar in 1866. Mr. Fairchild made his entry into public life in 1872, when he became deputy attorney general of the state of New York. His course while he held this position, from January, 1873, to January, 1876, commended him to his party, and in 1875 he was elected attorney general. His service as attorney general was most valuable to the state, and reflected great credit on the Democratic party. Mr. Fairchild has held no public office since the expiration of his term as attorney general of New York, but as president of the State Charitable Aid association he has served the public in a most practical way. The work of this association, which is of an extremely important character, may be hindered by his loss, but that can hardly be regarded as an objection to his appointment as assistant secretary of the treasury.

The Sage of Wall Street.



RUSSELL SAGE.

"Old Collateral," as he is sometimes called, has not yet lost his grip on Wall street, though it is said he is even more cautious now than ever since the last disaster there. Russell Sage is one of the purest examples in Wall street of frugality and thrift, these qualifications increasing with his hoard. Even the old apple woman who has for years sold him the apple that he usually eats with his cracker for lunch, and for which he was accustomed to pay a penny, now says Uncle Russell insists on "two for a cint," and yet he is easily worth $30,000,000. He was a New York state youth, and 50 years ago used to drive the produce of his brother's farm to market. Now he is approaching 70, and loves to tell of the resolution he made in those days to "earn all he could and spend less than he earned."

Is was to the policy of spending nothing that he really owes his possessions. Early in life his brother and himself entered into the grocery business, which prospered and led to further successes, so that in 1850 he had become of so much importance in his community as to be a candidate for congress, being elected to the Thirty-third and Thirty-fourth congresses. In 1860 he plunged into Wall street with about $200,000. He invented alluring methods of speculation, known as "puts," "calls," "straddles" and "spreads," from which he has rolled up his enormous wealth, it being no unusual thing for Mr. Sage to realize $10,000 in a single day from the "privileges" he disposed of.

ISAAC V. WILSON, who is discovered to be the richest man in Philadelphia, boasts that while acquiring his fortune of $15,000,000 he also acquired such abstemious habits that his personal expenses now are not more than $1,500 a year, which is the income at 3 per cent., on a fortune of $50,000.

"I was all run down, and Hood's Sarsaparilla proved just the medicine I needed," write hundreds of people. Take it now. 100 doses $1.

Mr. Arthur is investing some of his savings in Broadway property.

A former invalid writes: "I was greatly reduced in health and strength, caused by bad blood. I had a dozen boils in different parts of my body, and suffered many aches and pains, while the least exertion gave me great fatigue. I took three bottles of Dr. Guysott's Yellow Dock and Sarsaparilla and am completely cured. At night I enjoy refreshing, dreamless slumber, and all day I feel energetic and strong.

A million will be invested this year in Pennsylvania slate quarries.

The state normal school, at Millersville, Pa., is one of the most notable institutions of the kind in the land. J. R. Barr is a resident of Millersville, and he writes that for months he has been suffering with pains in the back, dizziness in the head, loss of appetite, etc., and although he was not altogether sick, yet he was not fit to do business, being constantly complaining. He concluded to try Mishler's Herb Bitters, and reports that in a short time the distressing symptoms left him and now he is as well as he ever was.

THE Long Island Railroad is testing the plan of having a special produce train, which is intended to take the farmer, with his team and its load, into New York, so that he will reach there early in the morning and return again at night. This, if successful, will bring all parts of the island (a hundred miles long) into direct connection with the city, and must ultimately result in making a market garden of nearly the whole island.

Pretty Finger-Nails.

Trim them; polish them; scrape them; and fix them all you please; yet they never will be truly beautiful unless the circulation of the blood is healthy, and the blood itself in perfect order. Look at the finger-nails of the debilitated person who suffers from lack of nervous energy. They look waxy and lifeless. Secure rich blood and perfect circulation, by using Brown's Iron Bitters. Mr. Welsh, Lexington, Mich., says, "I was reduced almost to a skeleton. I used Brown's Iron Bitters and now weigh 170 pounds."

Calcutta's trade amounted to $400,000,000 last year.

"It Will Cure Asthma"

"I had suffered with asthma for over forty years, and had a terrible attack in December and January, 1882. One day I took four doses of Parker's Tonic. The effect astonished me. I slept perfectly that night, and am now wholly well. Parker's Tonic will cure chronic asthma," E. C. Williams, Chapman, Pa.

The Princess Rink Successfully Launched in Public Favor by Fourteen Hundred Visitors---Master Clint Collins at the Academy.

Roller skating is now the national amusement and people believe the pleasant pastime new, but it is not. The *Frolique* dates away back. M. Dumas introduced it at Paris, 1819, at the Porte St. Martin Theater, where a *pas de deux* was executed on roller skates. No attempt was made to popularize the new invention. In the year of 1829 the ballet in the opera of "Le Prophete," by Meyerbeer, were mounted on wheels or roller-skates.

In the celebrated skating scene in "Le Prophete," to which the composer has written such characteristic music, peasants, soldiers and sailors, and in fact, all classes of the population of Holland—appear on the ice of the stage river and skate away to their destination. Unfortunately, some of the skaters found it sooner than they had expected by bringing up in one of the boxes on a level with the stage. The skates of that period were very clumsy as compared with those now in use. The pivot principle had not at that time been adopted, and the skaters and dancers found it difficult to even stop themselves or turn without slackening their speed. In France and Brussels large rinks were opened with considerable success over fifty years ago, and in 1885 Fort Wayne finds herself in the midst of the popular craze.

The Princess rink, built by W. A. Foote and Barney O'Connor, was opened to the public last night and 1,400 people were present as spectators and participants in the gay whirl on wheels. The event was brilliant and surpassed all expectations. At 7 o'clock there was a crowd at the entrance and it was 9 o'clock before all got inside, hundreds, too, having departed. During all this time Capt. Hugh M. Deihl maintained order and saw to it that pickpockets were not in the throng. Spiegel's orchestra furnished excellent music and 450 people were on the floor. The grand march, led by Frank S. Lightfoot and Miss Viola Hunter, was the feature of the evening. The ladie's skate also came in for a share of applause. The floor of the Princess is to be ground by a mammoth plane to-morrow and made as smooth as glass. The Princess is complete in all its appointments, the patrons are genteel, the management courteous and the resort leaps into popular favor at once. THE SENTINEL congratulates Messrs. Foote & O'Connor on the success of their venture.

The Academy had a big card last night in the person of Master Clint Collins. The boy is a marvel and executes feats on roller skates that would do credit to a professional tumbler. The Indian boy is not a marker to him, and the immense throng present were delighted. The boy gives another exhibition to-night. To-morrow afternoon he will lead the grand march at the children's dress carnival, and to-morrow night he will close his engagement.

Mr. Shuman's city rinks continues to be well patronized, and the proprietor is offering costly prizes to fancy skaters.

THE COURT HOUSE.

Daily Record of Litigation in Various Courts and the News of the County Offices.

The superior court jury comes in next Monday.

In the circuit court, yesterday, Levi Hoover, who was arrested in Huntington by Deputy Sheriff Clausmeier, for desecrating a church on the Bluffton road, was fined $25 and costs. He went to jail.

Edward Pepe has sold a part of lot 27, County addition, to Victor A. Hugenard for $1,150.

The case of Eagan H. Smith against Erastus Shuman has been appealed to the superior court from France's court, where Mr. Shuman was beaten. The matter in controversy is the ownership of a pair of roller skates.

Judge Hench, yesterday, granted Caroline Scheiffer a divorce from Charles Scheiffer, and also gave Mrs. Scheiffer the custody of the children, reserving for the husband the right to visit the children at reasonable times. The trouble of this couple have been sufficently aired.

The statement in the papers that the Kiser case had been heard in the circuit court is erroneous. The case was formally brought in the superior court, but dismissed while Judge Ninde was on the bench. Mr. Kiser is getting very feeble and Judge Hench could see no cause why he should have a divorce.

In the superior court yesterday on the application of George Eamond, Judge Hench signed an injunction to run until April 1, restraining Daniel S. Beaver, Marion A. Webb, Mary Inez Webb, Minnie A. Beaver, Edwin L. Beaver and DeGroff Nelson, sheriff, from selling the property known as Esmond's mill, situated on the St. Mary's river at the crossing of the Bluffton road. On April 1 the matters at issue will come up for final hearing.

The Huntington *Herald* says: "J. T. Downey, of Fort Wayne, special agent for the Northwestern Mutual Life Insurance company, was in the city to-day, in the interests of his company."

A Queer Law.

Indianapolis *Journal*: "Said Major Gordon to a reporter: 'Our present law is such that when a man dies leaving an estate worth over $10,000 his widow has a right to one-third of it. This gives her $3,333.33. If the estate is over $10,000 she gets but one-fourth. So that if the estate is worth $13,000 she receives but $3,250—less than if her husband had died possessed of only $10,000. If the estate is worth $20,000 she would under law get one-fifth—$4,000. If the estate should be worth one cent less, $19,999.99, the widow would be entitled to one-fourth—$4,999.99—$999.99 more than when her husband dies with one cent more. This law is absurd on its face, and yet it has been the law of this state for thirty-three years. Here's a chance for the legislature to right a long continued wrong—one that has gone on and on simply because no one has paid any attention to it.'"

Darwin Meyers put on the first pair of skates at the Princess rink last night.
